General description:

- Extremely solid frame that allows user to easily move the table.
- One single user can open and close the table simply rising and turning down the table tops. The table remains automatically in the working or transport position.
- Two bolts assembled under the top allow user to lock the tops when the table is in its working position.

- The table frame is supplied completely pre-assembled.
- Two length sizes available: for tops from 200 to 260 cm (small) and For tops from 280 to 320 cm (large)

small

large

- Frame suitable for tables tops from 80 to 100 cm width.
